# Synthetic conflicting price list

Source label: S3. Published 2026-11-11 for this fictional illustration only. This is not a real commercial offer.

## Standard monthly plan

- Price: USD 460 per month.
- Frequency: two visits each month.
- Included: accessible surface dusting, floor vacuuming or mopping, emptying ordinary office waste bins, and cleaning one kitchenette and one restroom.
- Excluded: hazardous waste, exterior windows, specialist equipment cleaning, and additional visits.
- Scheduling: appointment times and access arrangements are confirmed before service begins.

## Commercial boundaries

The example contains no tax treatment, payment schedule, contract length, start date, cancellation policy or discounts. If any of those terms are essential to a user's requested final proposal, ask for them rather than invent them.

This deliberate conflict is a synthetic edge-case fixture. It does not supersede S2; an actual user must identify which source is authoritative.
